Introduction - The Peace Games Project and the catalogue

The Peace Games project

The Peace Games project aims to contribute to the development of citizenship, democratic and social competences by using the full potential of creativity through game-based learning in formal and informal learning. Peace Games originated within the Laboratory for Education Inspiring Peace (EIP Lab - <http://eiplab.eu/>) and as an Erasmus+ project responds to the need of offering advice and orientation to the education community and to individual learners, by developing a structured review of existing games, based on a qualified analysis of learning objectives achievable, and a community hub to engage on peace-oriented online and offline games.

The Peace Games Catalogue

The PEACE GAMES catalogue is a selection of 55 interesting digital and analog games relevant to teaching and learning peace and peace-oriented competences. The games have been identified by the Consortium partners in different European countries on the basis of their relevance and classified for game-based learning.

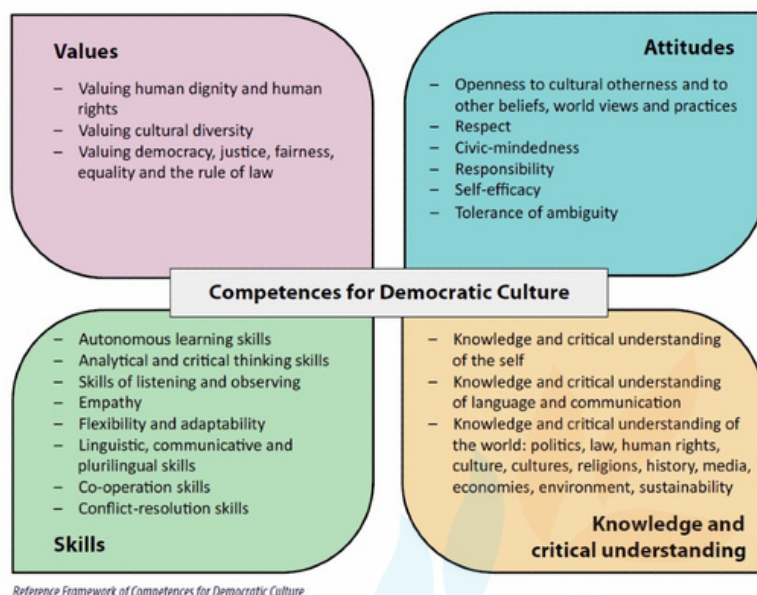

The catalogue classifies the 55 games by the topics addressed. The seven themes considered are:

- 1) Children's Rights, Democracy, Citizenship
- 2) Decision-making
- 3) Cooperation
- 4) Prevention of bullying, Disabilities
- 5) Prejudices and stereotypes, Cultural diversity, Intercultural understanding
- 6) Peace and War
- 7) Emotions

For each theme, there are several games to choose from, depending on the age of the players, the languages, the contexts, the duration and the dynamics to be activated. Each game presents a short description that provides an overview of the game, of the objectives and the player interaction, also giving examples of materials or screenshots. Then, the main details of the game are provided, in terms of target age group, languages, duration, availability, number of players and the competences and game strategies developed. The game strategies highlight if the game is competitive, collaborative or cooperative.

The RFCDC

Each game is related to one or more competencies of the internationally tested Reference Framework of Competences for Democratic Culture (RFCDC) of the Council of Europe and is referred to some other peace-related competencies considered within the Consortium partners.

Evaluation of the competences

Competences represent the ability to select and activate relevant psychological resources (values, attitudes, skills, knowledge and understanding) that need to be activated and used for participating effectively and appropriately in democratic situations. In order to support schools and teachers to implement and assess learning paths, the RFCDC provides a clear and concise evaluation with the description of the behaviours of pupils.

Educators must assess through three levels of acknowledgement (basic, intermediate and advanced) whether pupils have learned the values expressed in the RFCDC. According to these three scaled descriptors, it is possible to evaluate through the following table (Table 1.0) human rights and dignity, cultural diversity, democracy, justice, fairness, equality and the rule of law.

To assess human dignity and human rights among children, the basic level that each participant should obtain is being able to argue that human rights and in particular, those specific to children should always be protected and respected, especially in society. Successively, the intermediate level is reached when children are capable to advocate for equal respect and protection of human rights by all public organisations, arguing that no one should be subjected to torture.

1.0 Table for assessing children’s values according to the RFCDC

Values	Basic	Intermediate	Advanced
Human dignity and human rights	Argues that human rights and children’s rights should always be protected and respected in society	Advocates for equal respect and protection of human rights by all public organisation	Defends rights and dignity of every human being even under strict restrictions, understanding that all laws should be consistent with international human rights norms and standards
Cultural diversity	Promotes always mutual understanding and meaningful dialogue between people even by those perceived as different	Express that cultural diversity within society should be positively valued and appreciated	Supports the importance of the intercultural dialogue in recognizing different identities and cultures, developing a culture of living together
Democracy, justice, fairness, equality and the rule of law	Understand how to act as a democratic citizen and that everyone should be treated equally under the law, applied fairly	Argues that democratic elections should always be conducted freely, without any fraud nor cross the boundaries of their legal authority. Express support that courts of law should be accessible to everyone.	Understand that legislative power should be subject to the law if it is entrusted as well as public authorities which infringe civil rights

How to use the catalogue?

The catalogue is a tool that can be used in a flexible way, to find inspiration and ideas on possible games to propose in formal and informal educational contexts. The choice can be based on one of the themes and you can try out the various games proposed, choosing those that best suit your needs. Or you can choose games that deal with different themes, to build your own path of exploration. Obviously, classification by age, duration and language can help in identifying the games that can best contribute to developing the desired competences and best meet one's needs. For each game, you can find this information:

Suggested learning paths

Peace Games responds to the need to offer advice and orientation to the education community and to individual learners, by developing a structured review of existing games, based on a qualified analysis of learning objectives achievable, and a community hub to engage in peace-oriented online and offline games.

To support schools teachers in designing a learning program in education of peace and citizenship, the project has designed formal learning paths based on the Catalogue, classifying them by 'learning objective', target groups (pupils of different ages, teachers, adult educators, specific groups with social inclusion needs, etc.).

The structure of the learning paths for pupils entails different learning activities: digital or analogical games, but also movies, collective reflections, learning materials, including contextualised problems and questions i.e. by embedding the experiences held in each classroom in the field of 'activities. Then, there are also included some suggestions related both to the national scenario and learners' characteristics and preferences, as well as a full set of indicators from RFCDC, useful to build the assessment framework.

Finally, to encourage and support the appropriate choice of educational path, at the end of the catalogue it is possible to find the different learning paths divided by themes.

Competences

Analytical and critical thinking
Autonomous learning skills
Civic-mindedness
Knowledge and critical understanding
Responsibility

Description

Based on the interpretation of the myth of Antigone, this board game alternates different group and individual activities, depending on the colours of the boxes. The game aims to stimulate children's critical and creative thinking in a fun way. It requires alternating individual moments and collective moments, quick exercises and longer exercises, a general discussion and the mobilization of specific thinking skills. The objective pursued by working on the skills of thinking one by one (via credit cards) is to allow easier mobilization in subsequent discussions.

Theme 2

Decision-making

Games suggested

- iThrive:Sims - Lives in Balance
- Quandary
- First Strike
- The Sims FreePlay
- 5 Minuten Dungeon - Wahre Helden gegen die Zeit
- Ticket to Ride

Other games

- Rory's Story Cube
- Hanabi
- Dixit
- The Maze/The maze children

Learning path suggested

1. Teenagers (14-18 years old)
2. Teenagers (14-18 years old) - Variant

Learning path example: Teenagers (14-18 years old)

Games: Two truths and a lie (Ice Breaker), First Strike online, Ticket to Ride online

Information: Games can be played in parallel and compare the decision-making process of both games (First Strike Online; Ticket to Ride online). The games can be played on computer or tablet classes. Both digital games are multiplayer games. Variation: 2 students or a group of students can play a single-player game, for this, they have to decide together on the next move or next action.

If all three games are played, 2-3 lessons should be planned. "Two truths and a lie" can be used as a warm-up exercise/ice breaker for decision making and critical thinking before moving on to the First strike. First Strike and Ticket to Ride can be played parallel. For example, the class can be divided into 2 groups (boys and girls ...). The learning output of this path is that not everything that looks like truth/lie is actually true or false.

Competences:

- Values: valuing democracy
- Attitudes: self-efficacy; openness to cultural otherness and to other beliefs, world views and practices
- Skills: Decision making, analytical and critical thinking skills;
- Knowledge and critical understanding: knowledge and critical understanding of the self; reflection on one's own actions/one's own decision

Valuing human dignity and human rights

Description

The TOIMOINOUS is an educational kit who have to experience or observe situations of violence at school, which are often implicit or even ignored by the adult world. It leads to collective thinking and strategy designing to prevent school bullying. Being the victim of harassment, racketeering, physical or verbal attacks, the role of appearances and influences, the dynamics of exclusion, or to be the author of that, it is suffering for each child that should be recognized from the earliest age of socialization.

Description

Children must cooperate and help each other. They are stimulated in learning more about different disabilities. The activity should last for some hours so that children can experience different activities while having handicaps: at the beginning of the activity, different handicaps are given to different children. Some children can be blind, some others may have no arms or one leg, or they could be deaf etc. The simulation game takes place during other "normal activities" (like having lessons in classrooms, having lunch together and so on). At the end of the simulation, there will be a discussion guided by educators/teachers.

Description

The game is about a blind knight in the age of knights, whose wife has been kidnapped in the marketplace. He wants to go and save her, but he can do it alone. So, he takes his daughter with him, so she can be his eyes. The player only needs to use headphones (good ones, if possible since the game uses a state-of-the-art sound system to recreate a 3D sound environment). It is expected to be played on a smartphone, where actions are made by simple movements around the screen, with no need to see what you are doing.

Dr. Watts and Dr. Rosalene are two professionals that offer their customers the opportunity to rewrite their memories on the verge of death, thus ensuring a peaceful passing. The client is Johnny Wyles, whose dream has always been to go to the moon, but he can't remember why. Watts and Rosalene go back in time, understand when this desire was born and modify his memories, so as to make the old man believe he went to the moon. The theme of autism is treated in one of the characters.

Example of Learning path: Opening to others - embracing diversity:

Secondary education or higher education

Games: Stereotypes/Dixit/Dinstinct'Go, Stronger Together, Can You? The priviledge game

The topics addressed by this learning path are: discrimination, prejudices, Human rights, LGBTQ+ rights, gender equality, anti-racism, anti-validism.

This learning path is very interesting and crucial to build a safer educational environment. However, if the various topics are not evoked before, and if the participants in the activities are not sensitized to these issues, games and linked interactions may be an occasion to face discriminating or oppressive behaviours. But we have to keep in mind that those behaviours are anyway existing in the reality field, and this precaution necessity should not prevent or discourage you to try to raise awareness about discrimination and stereotypes. The role of the teacher/animador is to reduce the risk to see bad behaviour happen, for instance by setting strict rules of expression and by evoking these topics with pedagogy, caring and expertise.

Complementary activities may be watching the movie "Imitation Game" (Morten Tyldum, 2014) or 120 Beats Per Minute (Robin Campillo, 2017).

"If you love me don't die" is an interactive story for smartphones and tablets that allows you to take part in the journey of refugees from Syria who are looking for a way to reach Europe. "If you love me, do not die" is an Arabic phrase that is exchanged as a greeting with loved ones when you part. In the Syrian city in which the protagonists live the situation has become unbearable. Nour, who lost his twin sister under the bombs, leaves. The app asks you to make choices between the phrases or emoticons proposed, thus conditioning Nour's journey and pushing her towards one of the 19 different endings imagined by the developers.

Description

The game follows the story of two twins who go back to their hometown in Alaska after 10 years. They left the town all those years ago after their mother's death, and they have not seen each other since then. But they decide to go back to find out what really happened and put an end to the story. Although there are two main characters, the game is single-player, and the player can control both twins, sometimes choosing which one and sometimes following what the game wants. The player can move around, take objects, check things, and talk to people. And he or she will be asked to take decisions all the time, which will then decide how the game evolves.

Description

The game offers a great variety of characters with differences in sexuality, gender, class, race, health, body type, etc. Each player takes one of these characters. Players have to answer questions related to a situation with “yes” or “no”. Every “yes” means your character benefits from a privilege, and the “no” means it does not. After answering, all players are invited to argue about why they answered as they did. Every “yes” is a point for the player, and the character can move forward, while every “no” means the character cannot move. At the end of the session, each player compares where their character is standing in comparison to others and can visualise the effects of privileges (and discriminations) on daily life situations.

Description

This is a game about creating ideas from a drawing that the other people must be able to recognise, but without being too obvious. It is about imagination and alternative ways of thinking and seeing things. In each round of the game, each player must choose which card they think is the right one. It can also make people realize how different cultures and backgrounds affect the way people interpret drawings and ideas. It also makes people think differently, because the aim of each round is to get the maximum number of people to guess your card but not everybody, since that would mean it was too easy.

These are four important competences to build on in the fifth module: prevention of radicalization. The structure is always the same: after having read the scenario (a playlet), the players engage in a dialogue on the theme and choose, among three possibilities, what they consider to be the most appropriate response to the problem posed. A score is assigned to each of the three possible answers. You will receive feedback that lets you know how well it seems suited to the goal.

Description

The game aims at exploring the cultural stereotypes surrounding different countries and debating them in a safe and constructive environment. Draw the contours of each country on 2 different papers and write the name of the country. Place them one on the floor. Everybody walks around and writes on the papers, what they know (or think) about this country - except their own (1 hour). Then each group of people belonging to the same country writes on the other paper, what they know about their own country (1 hour). In turn, each delegation shows the 2 papers and compares - what was the same and what wasn't. They also tell about the things they wrote themselves. It is possible to let the children explain in their own language and someone can translate.

Learnign path suggested

- 1.Children
- 2.Teenagers

Learning path example: Teenagers (14-18 uears old)

Games: Jembatan, Hellapagos, Constructores de paz

Information: Jembatan is a purely cooperative game, thus serving as a good “antidote” to situations of exclusion: it can be used to complement a conflictual game with dynamics of exclusion, be it a board game or a playground game such as “police and thieves”; for board games, avoid Lupus in tabula, which can dangerously exacerbate exclusion dynamics and foster conflict. Jembatan can be played starting with a simpler version (available in the instructions) and making it gradually more complex. The metaphorical aspects of the game reflect real life, but analogies may need to be explicated better. It shows how cooperating helps to prevent a conflict even though the path to war seems simpler. The aspect of negotiation can be found in the game but should be developed externally by the teacher. After Jembatan, Totem and Friendship cards could be used to explore of emotions and emphasise the positive traits of children.

Competences:

- Values: respect of law comes out in all games as rules must be known, respected and then used; peace
- Skills: Cooperation skills, conflict resolution/prevention; empathy;
- Attitudes: respect
- Knowledge & understanding: critical understanding of the self

The player does not use rifles to shoot enemies; the main weapon is a pinch of ingenuity: objects must in fact be used to open paths and get around opponents or, if bombs are thrown, they will be used not to kill but to open gaps in the walls. The game tells the First World War taking its cue from true stories, stories of ordinary men torn out of the blue from their everyday life and forced to go to fight at the front. In fact, as can be seen from some letters present in the game and really written by the soldiers of the Franco-Germanic front. These men were much more worried about the conditions of their loved ones, crops and pastures, without even knowing the political and power conditions that had triggered the conflict.

Everybody sits in a circle, and get a piece of paper and some coloured pens. Soft music in the background. Tell the participants to draw and paint peace on their papers (20 min). Then each participant sends the paper to the left and everybody receives a new drawing, with peace on it. Tell them to draw or paint war on this new paper. (15 min) Now the participants get their own paper back. Tell them to draw or paint peace again. After the activity, a discussion is needed.

Feelings and Emotions

Games suggested

- The Colour Monster
- Feelinks
- Language of Feelinks
- Totem - The Feel Good Game

Other games

- Dixit
- Friendship cards - Resolving conflicts
- Can You? The Priviledge games

Learning path suggested

1. Like to get you know you well (8-14 years old)
2. You're playing with My feelings. Aren't you? (16 - 19 years old)

Learning path example: Like to get you know you well (8-14 years old)

Games: Totem, Feelinks, Can You? The privileges game

Information: The games are listed according to the recommended age of the players. Younger players may start with less complex games such as Totem to the self-awareness and the mutual knowledge and then play Feelings which may lead to some surprisingly good conversations about complex issues (from genetic manipulation to their relationship with their father). Our advice is to play Can You? The privileges game under adult supervision as it deals with issues such as sexuality, sexual diseases, gender issues and stereotypes, contraception. For the same reason, this game may be targeted at older teenagers or young adults.

The learning path aims are:

- to identify examples of emotions, feelings, and moods to develop self-awareness
- to support sex education
- to prevent prejudices, gender stereotypes and bullying

Competences:

- Values: valuing democracy
- Attitudes: self-efficacy; openness to cultural otherness and to other beliefs, world views and practices
- Skills: Decision making, analytical and critical thinking skills;
- Knowledge and critical understanding: knowledge and critical understanding of the self; reflection on one's own actions/one's own decision

Knowledge and critical understanding of the self

Description

The person who starts, the dealer, gives 7 animal cards (strengths) to each player, except for himself. From these cards, each player must choose the one that he or she thinks suits the dealer best, and then give it upside down to him or her. The dealer shuffles the cards and then looks at them. The dealer orders them according to what he or she considers than matches him or her better and then places the card in this order upside down on the table. The dealer shows the last card first, and the person who chose it explains why he or she chose that strength and also gives examples where he or she has seen the dealer showing this strength.

Reflection

Description

In the game, our preconceptions are challenged. Feelinks contains 50 cards offering 150 situations from everyday life. For example: "You wake up in the body of a person of a different ethnicity" or "The Minister of Justice is caught smoking cannabis". The players are obligated to express their feelings in a given situation and to guess the feeling of another player in the same situation. This empathy for each player is conducive to the debate and to the challenging of our preconceptions.

Suggested learning paths - Decision-making

Theme 2: Decision-making

1. Teenagers (14-18 years old)
2. Teenagers (14-18 years old) - Variant

1) Teenagers (14-18 years old)

Games: Two truths and a lie (Ice Breaker), First Strike online, Ticket to Ride online

Information: Games can be played in parallel and compare the decision-making process of both games (First Strike Online; Ticket to Ride online). The games can be played on computer or tablet classes. Both digital games are multiplayer games. Variation: 2 students or a group of students can play a single-player game, for this, they have to decide together on the next move or next action. If all three games are played, 2-3 lessons should be planned. "Two truths and a lie" can be used as a warm-up exercise/ice breaker for decision making and critical thinking before moving on to the First strike. First Strike and Ticket to Ride can be played parallel. For example, the class can be divided into 2 groups (boys and girls ...). The learning output of this path is that not everything that looks like truth/lie is actually true or false.

Competences:

- Values: valuing democracy
- Attitudes: self-efficacy; openness to cultural otherness and to other beliefs, world views and practices
- Skills: Decision making, analytical and critical thinking skills;
- Knowledge and critical understanding: knowledge and critical understanding of the self; reflection on one's own actions/one's own decision

2) Teenagers (14-18 yo) - Variant

Games: Two truths and a lie (Ice Breaker), Scribble Corner, SIMS Free Play

Information: "Two truths and a lie" and/or Scribble Corner can be used as warm-up exercises/ice breakers for decision making and critical thinking before moving on to The Sims. Suggestions to play The Sims: Start with an introduction about the competences from the butterfly that are necessary to acquire. Give the students a set of challenges that they should work on in class or after class and document them with screenshots and notes. Reflect on them later in class and discuss how those competences play a role and can be acquired during the game-play.

- What is different to real life?
- What is better?
- What is worse?
- How do certain decisions make it better/worse?

Competences:

- Values: valuing democracy, justice, fairness, equality and the rule of law
- Attitudes: tolerance of ambiguity; self-efficacy
- Skills: Decision making, analytical and critical thinking skills;
- Knowledge and critical understanding: knowledge and critical understanding of the self; reflection on one's own actions/one's own decision

Suggested learning paths - Cooperation

Suggested learning paths - Prejudices and stereotypes, Cultural diversity, Intercultural understanding

Theme 5: Prejudices and stereotypes, Cultural diversity, Intercultural understanding

1. Opening to others - embracing diversity - Secondary education or higher education
2. Celebrate diversity - Secondary education or higher education

1) Opening to others - embracing diversity - Secondary education or higher education

Games: Stereotypes/Dixit/Dinstinct'Go, Stronger Together, Can You? The privilege game

Information: The topics addressed by this learning path are: discrimination, prejudices, Human rights, LGBTQ+ rights, gender equality, anti-racism. This learning path is very interesting and crucial to build a safer educational environment. However, if the various topics are not evoked before, and if the participants to the activities are not sensitized to these issues, games and linked interactions may be an occasion to face discriminating or oppressive behaviours. But we have to keep in mind that those behaviours are anyway existing in the reality field, and this precaution necessity should not prevent or discourage you to try to raise awareness about discrimination and stereotypes. The role of the teacher/animator is to reduce the risk to see bad behaviour happen, for instance by setting strict rules of expression and by evoking these topics with pedagogy, caring and expertise. Complementary activities may be watching the movie "Imitation Game" (Morten Tyldum, 2014) or 120 Beats Per Minute (Robin Campillo, 2017).

Competences:

- Values: valuing human dignity and human rights, valuing cultural diversity
- Attitudes: openness to cultural otherness, respect
- Skills: empathy, flexibility and adaptability, cooperation
- Knowledge and critical understanding: knowledge and critical understanding of the self

2) Celebrate diversity - Secondary education or higher education

Games: Assassin - Discovery Tour, Kosmopolit, Never alone (at home or in the computer room), Dixit

Information: How to organise an online-game session at school? You can split the class in two, one with you in the classroom playing board game, and the other group with a pedagogical assistant having clear guidelines in the computer room. Let's play for half an hour or 45 minutes and then exchange rooms. You may also require the help of the informatics department of your organisation. Advice on playing Kosmopolit: We advise that the waitress role is embodied by the most experimented player, the teacher or animator. This role needs indeed to know the game, and interact with the app. You can merge the role of the waiter-ress and the role of the Coordinator (Maitre d'Hotel). You can also play the game without headphone so every player can here the dish name out loud.

Competences:

- Values: valuing human dignity and human rights, valuing cultural diversity
- Attitudes: openness to cultural otherness, respect
- Skills: empathy, flexibility and adaptability, cooperation
- Knowledge and critical understanding: knowledge and critical understanding of the self

3) Transversal path: Media literacy and digital citizenship (full online) - secondary to upper education

Games: Misclick, Post-Facto, Fake it to make it

Information: The topics addressed by this learning path are: media literacy, digital citizenship, online behaviour, fake news, critical thinking.

Suggested learning paths - Peace and War

Theme 6: Peace and War

- 1.Children
- 2.Teenagers

1) Children

Games: Jembatan, Hellapagos, Constructores de paz

Information: Jembatan is a purely cooperative game, thus serving as a good “antidote” to situations of exclusion: it can be used to complement a conflictual game with dynamics of exclusion, be it a board game or a playground game such as “police and thieves”; for board games, avoid Lupus in tabula, which can dangerously exacerbate exclusion dynamics and foster conflict.

Jembatan can be played starting with a simpler version (available in the instructions) and making it gradually more complex. The metaphorical aspects of the game reflect real life, but analogies may need to be explicated better. It shows how cooperating helps to prevent a conflict even though the path to war seems simpler. The aspect of negotiation can be found in the game but should be developed externally by the teacher. After Jembatan, Totem and Friendship cards could be used to explore emotions and emphasise positive traits of children.

Competences:

- Values: Respect of law comes out in all games as rules must be known, respected and then used; peace
- Skills: Cooperation skills, conflict resolution/prevention; empathy;
- Attitudes: Respect
- Knowledge & understanding: critical understanding of the self

2) Celebrate diversity - Secondary education or higher education

Games: Jembatan – Hellapagos – Totem – Friendship cards

Information: Jembatan can be used as a warm-up exercise for cooperation, before moving on to Hellapagos. Hellapagos is more suitable for teenagers than younger children due to its content and themes, e.g. the phase in which a player is chosen to die for the survival of the rest of the group. It is a strategic game which initially requires teamwork and coordination, but which later leaves room for individualistic strategies. Players need to negotiate and convince others when choosing who to eliminate. Totem can then be used to balance the conflictual aspects of Hellapagos by emphasising positive individual traits. Friendship cards can also be connected to Hellapagos since it involves reaching an agreement through emotions. Constructores de Paz can be included in this path: it is an encyclopedic, informative game which requires basic knowledge of certain historical figures and events: this makes it more suitable for teenagers, maybe starting from 14 years old. It is useful for Civic Education, and is more informative than recreational. Constructores is available in English, French, Spanish, Basque.

Competences:

- Values: human rights and dignity, democracy, justice, fairness
- Skills: Cooperation and Conflict resolution, empathy, listening and observing
- Attitudes: Openness to otherness and other world views, civic mindedness (collective interest), responsibility
- Knowledge: Critical understanding of self, Knowledge & critical understanding of the world

Suggested learning paths - Feelings and Emotions

Theme 7: Feelings and Emotions

1. Like to get you know you well - 8-14 Years old
2. You're playing with My feelings. Aren't you? - 16 - 19 Years old

1) Like to get you know you well - 8-14 Years old

Games: The colour monster, Totem, Feelinks

Information: All the games may be used at various levels: as ice-breaking activities or to a deeper level to increase self-awareness and mutual knowledge and acceptance. Our advice is to start with less complex games such as the color monster or Totem then play Feelinks which may lead to some surprisingly good conversations about complex issues (from genetic manipulation to their relationship with their father).

Elder students can play these games using foreign languages. The learning path aims are:

- to identify examples of emotions, feelings, and moods
- to develop self-awareness

Competences:

- Values: respect of law as it comes out in all games as rules must be known, respected and then used human dignity
- Skills: respect, cooperation, listening, observing, empathy, linguistic, communicative and pluri- linguistic skills, conflict resolution
- Attitudes: openness to otherness, respect, tolerance of ambiguity
- Knowledge & understanding: knowledge and critical understanding of the self

2) You're playing with My feelings. Aren't you? - 16 - 19 Years old

Games: Totem, Feelinks, Can You? The privileges game

Information: The games are listed according to the recommended age of the players.
